

Low profile aluminium sump & pick up pipe for 2.0L 16v XE/LN engine

Oil pick up pipe

Before fitting, ensure that the pick up pipe is clean both externally & internally.
Fit in the standard position using a new 'o' ring & the standard steady bracket.
Torque fixing bolts to correct settings as specified in the manual for the vehicle.

Sump fitting

Before fitting, ensure that the sump is clean both externally & internally.
If the baffle is removed, refit using threadloc on the retaining screws.
The sump is fitted using the standard 2 gaskets & windage tray & bolts.
Torque the fixing bolts to correct settings as specified in the manual for the vehicle.
